

English

This half term children will be learning to retrieve and infer information from illustrations and text. They will use verbs and adjectives to write sentences that describe settings and action. Children will create and perform poems about the animals in the Savannah.

Maths

In maths, children will build on their previous knowledge of counting in multiples of 2 and 5's and go beyond 20 up to 50.

Children will count in groups of tens for the first time; they will use pictures, bead strings and number lines to support their counting.

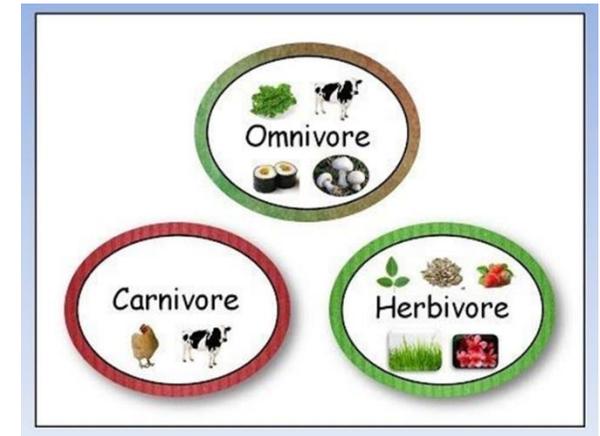

To begin to understand multiplication and division, they will begin by using stories which link to pictures and concrete manipulatives to explore making equal groups and write statements such as 'there are ___ groups of ___.' They will recognise and explain how they know when they are equal or not. They will use equal groups to find the total amount. Children begin to make arrays by making equal groups and building them up in columns or rows.

Children will explore doubling with numbers up to 20 reinforcing their understanding that 'double' is two groups of a number or an amount.

Children will begin to look at fractions; They will explore finding a half for the first time using shapes and sets of objects.

Science

Children will be learning to identify different classifications of animals including mammals, birds, reptiles and amphibians. They will learn the characteristics of each of these groups along with the meaning of the terms carnivore, herbivore and omnivore.

History/Geography

This half term children will be continuing to investigate different places around the world. They will do this by using atlases, maps and globes to find different countries, continents and oceans.

They will also be comparing the United Kingdom to Kenya. They will learn about the animals that live there, the landscapes they have and the weather. They will then compare them and identify how they are the same or different.

Music

Children will be learning music from the "Charanga" scheme and learning about different instruments to make music. They will work in groups to create some music.

The song for this half term is called 'Your Imagination'.

Computing

Using various apps children will learn to record a presentation, select images and insert text to create a fact file about lions. They will learn to add speech to a video or still image.

They will also create a news report video using a green screen about the Queen's Platinum Jubilee.
