

Frederick Bird Curriculum Overview – Summer 1 2022 Year: Two Theme: London/Getting Healthy

<p><u>English</u> This half term our book is Claude in the City. It is all about a curious dog who goes on adventures in a busy city. The children will be developing their sentence writing skills to create written pieces of work. This will include postcards, leaflets, adventure stories and letters. They will be developing ways to use powerful vocabulary and write a range of sentence types such as questions.</p> <p>The children will also be developing their independent reading and comprehension skills by answering questions about the text.</p>	<p><u>Maths</u> In maths, children will continue to develop their mathematical fluency in known number facts, which will include number bonds, times tables and fractions.</p> <p>They will also be given opportunities to problem solve to apply their knowledge and use strategies taught in the classroom.</p> <p>We will also be exploring measures including length, capacity and weight.</p>	<p><u>Science</u> This term, children will be continuing to study plants and animals. They will learn to identify the main parts of a plant and investigate the best conditions place for a plant to grow.</p> <p>They will also be finding out about the features of living things, including humans. For example, all living things breathe, move and grow. This includes naming important parts of the body and understanding their importance. In addition, the children will be exploring the importance and exercising and eating a healthy diet.</p>
<p><u>History/Geography</u> In History, the children will be learning about, the Great Fire of London. They will find facts about significant people in the 1700 century and why they were important. Children will write a diary entry about the events that took place in 1666 about “The Great Fire of London” and they will write instructions about putting out a fire.</p> <p>In Geography, children will be learning about UK countries and about the capital cities in these countries (England, Scotland, Wales and Northern Ireland.) they will be learning about famous landmarks that represent the capital cities. They will compare the cities in the UK and find similarities and differences between them.</p>	<p><u>Music</u> Children will be learning music from the “Charanga” scheme and learning about different instruments to make music. They will work in groups to create some music.</p> <p>They will be learning a song called ‘Friendship’. They will learn how to sing along with the song and also how to play a tune on the glockenspiel.</p> 	<p><u>Computing</u> In computing this half term, the children will be learning all about Stop Motion Animation. This is a filmmaking technique, used to create many famous movies. We will be using an iPad application called Stop Motion Studio. The children will develop a storyboard for a small animation and make character puppets based on our book ‘Claude in the City’.</p> <p>Children will develop their photography, storytelling, and movie-making skills through this project.</p>

<p><u>PE</u> This term, we are developing our athletic skills and exploring sports that take place at the Olympic games. Children will be encouraged to participate in friendly competition and to achieve their personal best.</p> <p>Our games will include relay races, javelin, skipping, and assault-courses.</p> <p>This will help us to be amazing athletes on Sports Day!</p>	<p><u>Art and Design</u> Children will develop their drawing skills further by creating observational drawings of flowers. They will use a view-finder to zoom in and focus on shapes and lines. They will also experiment with water-colours and oil-pastels to create different shades and tones.</p> <p>Children will create their own abstract art, inspired by the artist Georgia O'Keefe.</p>	<p><u>Design and Technology</u> In D and T, children will be looking at different equipment kits to construct a solid structure. They will design and look at different landmarks in countries around the UK and how they are made. Construction-based challenge can be an excellent project for encouraging children to think creatively, to solve problems and to express their own ideas.</p>
<p><u>PSHE</u> Children will follow the Jigsaw Curriculum for PSHE. In this half term the children will work on the unit 'Relationships'.</p>		<p><u>RE</u> Children will learn about many world religions during their time at school. In this half term the children will share stories from Christianity, Islam and Judaism. They will learn about the messages in stories and link it to their own personal experiences.</p>
